Pain

Blackfield

Here I'm standing on the seashore She is gone, now she's gone All the angels praying for me As I fall, as I fall

While I'm melting in the rain, deep in pain, she is so far Will we ever meet again as friends, after so long?

To my nightmare with the devil I'll go strong, I'll go strong All my friends now try to save me What a joke, what a joke

While I'm melting in the rain, deep in pain, she is so far Will we ever meet again as friends, after so long?
