

## Where Is My Love?

**Blackfield**

Endless fields of emptiness in my dark and wounded heart  
Where is my love?

The freezing moment when you turned your head and waved goodbye  
Where is my love?

Even all the biggest storms can't take my pain away  
Where is my love?  
Noisy happy people crossing streets from side to side  
Where is my love?

I gave you everything I could but you want the stars  
Where is my love?  
Endless fields of emptiness in my dark and wounded heart  
Where is my love?

Even all the biggest storms can't take my pain away  
Where is my love?  
Noisy happy people crossing streets from side to side  
Where is my love?
