

Back on the Streets

Blackfoot

I've been lookin' for a direction to put me in touch,
I'm a-searchin' high and low for my connection,
am I asking too much?

Way back in my mind, there's a voice that says I can
find just what I'm looking for,

Well I'm back, back on the streets again, yes
I'm back, back where it all began.

And I need some technicolor high adventure, to stay on the move
,
Well the winner's circle I am meant for, no way I can lose.

Ain't nothin' like the real thing baby, to let you know what li
fe is all about.

Yes, you've got to get back, back on the streets again,
Well I'm back, back where it all began.

It's an ever changing wild world baby
but to stay on top you've got to believe,

Yes, you've got to get back, back on the streets again,
Well I'm back, back where it all began.
Yes, you've got to get back, back on the streets again, yes
Well I'm back, back where it all began.
