Heartbeat and Heels

Sound of my bootheels Against the street I'm on my way back to you Across the city Hear the sound of my heartbeat Oh baby I hope that you do

I'm through with the talkin' It's time I started walking To where you are

I don't care how far I hope you're in your bed tonight I know it's far, I wish I had a car Our love is right but money's tight

Heels against the sidewalk I sure don't need no bad talk From the street

Heartbeat and heels, all night and day Heartbeat and heels, baby Heartbeat and heels Comin' back today to stay

Blackfoot
