Warped

Blackfoot

Well its seems that everybody has to tell me what to do
And I didn't listen to them so you know I won't listen to you
'Cause you know that I'm down right crazy as hell
Do what I want to do
Go Stand on the street corner begging for change
End up being a fool
I'm warped and I'm comin' to you
Yes I'm out on my own and nobody speaks for me
And I don't want much but to keep on riding free
And it's too bad you can't live your life for yourself
Man come on make a stand and you know you're nobody else
'Cause you know that we're down right crazy as hell do what we
want to do
Stand on the street corner begging for change
End up being a fool
I'm an easy going man with a simple little plan
You know I ain't nobody's tool
Just because I don't talk too much don't think I'm too cool
I'm warped and I'm coming to you
I'm warped, and I'm outta my mind
And love to boogie woogie
When the feeling is right
Well I'm warped and I'm burning my brain
Why don't you come in and ride this rock 'n' roll train
Oh choo choo little mama
Solo
Now I'm out on my own and nobody speak for me
And I don't want much but to keep on riding free
Well freedom is a fire that never goes away
And you can't have the flame unit your dying day
'Cause you know that we're down right crazy as hell
Do what we want to do
Stand on the street corner begging for change
End up being a fool
I'm an easy going man with a simple little plan
You know I ain't nobody's jewels
Just because I don't talk too much
Don't think I'm too cruel
I'm warped and I'm comin' to you
