

I Demon

Blackguard

You are nothing
You are a shadow
You will waste away
Before your time

You are a plague upon the earth
A flicker of light
Your pain and all your fears
Will fall upon deaf ears
You will not know the peace
You long so much for...

Your courage will come and go
But we are who we are

I have come here to expose all you are
You're sick and vile you know it's true
Your end i see clear, you'll fall with all fear
All that i say will be done

These voices inside my head
The ones that say anything
The ones that would have me trip and fall

I am the demon
I caused the pain
I knew what my self doubt would bring

No! No! I am more
No i can't give in
Now i'll break the cycle
Now i'll make it all right

No more falling down
