## **Almost A Memory Now**

## **BlackHawk**

She gets her things together
Puts them by the door
She says there's no love here anymore
I'll never be the same if she walks out
But she's almost a memory

## Now

Wish I could turn her heart around I feel so alone and she's not even gone She's almost a memory now

She hasn't even left but I know she's gone She never even said where we went wrong One thing that I know without a doubt She's almost a memory

## Now

Wish I could turn her heart around I feel so alone and she's not even gone She's almost a memory now

I feel so alone and she's not even gone
She's almost a memory now
She's almost a memory now
Wish I could turn her heart around
She's almost a memory now
She's almost
She's almost a memory now
