

I Need You All The Time

BlackHawk

I need a car when I'm driving
A plane when I'm flying
A call takes a quarter and dime
I need a radio playing
When there's nothing worth saying
And some help when I'm falling behind
Extra rest on occasion
Holiday or vacation
But I need you all the time

Every beat of my heart
Every thought in my head
Points straight to you
Underlined in red
Every move I make
Every minute of mine
I need you all the time

I need boots when I'm walking
A southern drawl when I'm talking
And I run when I wanna unwind
Some cash when I'm going
Some freedom for growing
And some preaching to keep me in line
They could build it or dream it
I could take it or leave it
But I need you all the time
