

Like There Ain't No Yesterday

BlackHawk

I've been living my life like a man in chains
Ever since she took her love away
But this is now and that was then
And baby all bad things gotta come to an end

So tonight I'm going caution into the wind
Getting down to the business of living again
Back in the saddle and I'm holding the reins
Gonna find somebody and love her
Like there ain't no yesterday

Now, it's dark as a dungeon down where I've been
And there ain't no way I'm going back again
I've got my best foot forward on to greener grass
'Cause there ain't no future living in the past

So tonight I'm going caution into the wind
Getting down to the business of living again
Back in the saddle and I'm holding the reins
Gonna find somebody and love her
Like there ain't no yesterday

Out of the ashes, alive and free
No longer a slave to a memory
Got the rest of my life right out in front of me

So tonight I'm going caution into the wind
Getting down to the business of living again
Back in the saddle and I'm holding the reins
Gonna find somebody and love her
Like there ain't no yesterday

Tonight I'm going caution into the wind
Getting down to the business of living again
Back in the saddle and I'm holding the reins
Gonna find somebody and love her
Like there ain't no yesterday
