

One Night In New Orleans

BlackHawk

One night in New Orleans on a Super Bowl Sunday
In a bar with a big screen TV
She was there with some girls they were down from Montreal
And she walked right up to me

She said voulez vous danser and she started to move
I said baby I don't parlez vous
She said voulez vous toucher then she took me by the hand
And I knew that she wanted to dance
Yeah c'est la vie baby whatever you c'est
I'll do anything if you put it that way
Voulez vous l'amour I found out what that means
One night in New orleans

Lookin' in her eyes I saw the French quarter
In a way I had never seen
Kisses and beignets strawberries and champagne
One night in New orleans

She said voulez vous danser and she started to move
I said baby I don't parlez vous
She said voulez vous toucher then she took me by the hand
And I knew that she wanted to dance
Yeah c'est la vie baby whatever you c'est
I'll do anything if you put it that way
Voulez vous l'amour I found out what that means
One night in New Orleans

I said how do you say I love you
She smiled and whispered je t'aime
Although I never told her I loved her
That night in New Orleans I did

She said voulez vous danser and she started to move
I said baby I don't parlez vous
She said voulez vous toucher then she took me by the hand
And I knew that she wanted to dance
Yeah c'est la vie baby whatever you c'est
I'll do anything if you put it that way
Voulez vous l'amour I found out what that means
One night in New Orleans
