```
Is this happening? Is this fantasy?
Never did I believe
There could be such happiness
Feels like nothing on earth
Started with one little kiss...
I could stay in this moment forever
I could reach every star in the sky
I could lose myself when I look
Into your eyes...
Is this happening? Is this fantasy?
All my dreams coming true...
...all because of you
I can't believe its true...
...all because of you...
You are everything I
Wanted for so many years...
Goodbye long, lonely nights
Sadness and thousands of tears
I could stay in this moment forever
I could reach every star in the sky
I could lose myself when I look
Into your eyes...
Is this happening? Is this fantasy?
All my dreams coming true...
...all because of you
I can't believe its true...
...all because of you...
Is this happening? Is this fantasy?
All my dreams coming true...
...all because of you
I can't believe its true...
...all because of you...
