

Be Mine Tonight

Blackmore's Night

Be mine tonight,
We'll travel through all our memories,
In our own little space in time,
You've always been mine...

Through the years,
I feel your love beside me
Through the laughter and the tears,
You've conquered all my fears...

So many stories,
So many treasures,
So much our lives have shared...
We've done it all and we've done it together,
You know I've always cared...

In this heart,
There'll never be another,
You have made my life complete,
Our love is like a dream...

Take my hand,
Nothing can come between us,
We were always meant to be,
Forever, you and me...

In my eyes,
Your face is always before me,
Our souls are now as one...
We've only just begun
