

## Queen for a Day (Part 1)

Blackmore's Night

A featherbed to rest my head  
On roses would I lay  
A full moon would glow every night  
And summer would be every day  
We'd dance and sing all afternoon  
And rain would wash troubles away  
Every wish would be granted for me  
If I could be Queen for a Day...

The finest horse, the color of night  
The likes you never did see  
Silver stars and firelight and candles would burn just for me  
We'd dance and sing all afternoon  
And rain would wash troubles away  
Every wish would be granted for me  
If I could be Queen for a Day...

And when the night grew cold and dark and worries ran too deep  
Angels would surround my bed and carry me off to sleep  
We'd dance and sing all afternoon  
And rain would wash troubles away  
Every wish would be granted for me  
If I could be Queen for a Day...
