

Queen for a Day (Part 1)

Blackmore's Night

A featherbed to rest my head
On roses would I lay
A full moon would glow every night
And summer would be every day
We'd dance and sing all afternoon
And rain would wash troubles away
Every wish would be granted for me
If I could be Queen for a Day...

The finest horse, the color of night
The likes you never did see
Silver stars and firelight and candles would burn just for me
We'd dance and sing all afternoon
And rain would wash troubles away
Every wish would be granted for me
If I could be Queen for a Day...

And when the night grew cold and dark and worries ran too deep
Angels would surround my bed and carry me off to sleep
We'd dance and sing all afternoon
And rain would wash troubles away
Every wish would be granted for me
If I could be Queen for a Day...
