

The Moon Is Shining (Somewhere Over the Sea)

Blackmore's Night

The moon was shining
Somewhere over the sea
The moon was waiting
For you to return to me

I haven't seen the day
Since you went away
The moon was shining
Somewhere over the sea

There's been no light of day
Since you went away
Oh, the moon was shining
Somewhere over the sea

The snow was falling
Colder than winters I've known
The snow was falling
Icicles turning to stone

Still I wish on a star
Come back wherever you are
Oh, the snow was falling
Colder since I've been alone

Still I wish on a star
Come back wherever you are
Oh, the snow was falling
Colder since I've been alone

Oh, the stars stopped glowing
On the night that you left
Oh, the wind stopped blowing
All I could hold was my breath

Still I have to believe
You will return to me
Oh, the stars stopped glowing
On the night that you left
