

## Smile

Blackstar

Well you can take that look off your face  
Because I just cannot take it no more  
Take that look right off your face  
Your stupid face that I abhor  
That I abhor

Well tell me to what do you amount  
Well come hear me shout

Well do not make me laugh  
Ha ha ha ha ha ha  
Do not make me

Laugh on the other side of my face  
With a little smile of scorn  
With misery I have been graced  
Bursting until my lungs are sore  
Come hear me roar

And what have I achieved  
Come hear me sing

Do not make me laugh
