

# Booti Call

Blackstreet

It's just a bootie call

Hey baby, turn around  
It's not what it seems  
The way I like it by the pound  
Must be in the genes

Only want to have fun  
No time to get sprung  
That's the way it is on Blackstreet  
After all, it's a booty call

Well, you know what I like  
You've got it  
Just be there tonight  
I want it, hey, yeah

You know that it's right  
All I wanna do is be  
Where you're at

[CHORUS]  
Why must I feel like that  
Why must I chase the cat  
Nothing but the dog in me  
Why must I feel like that  
Why must I chase the cat  
Nothing but the dog in me

Sometimes I feel that I  
Might want to settle down  
But on my wedding night I feel  
I'm gonna play around

Life is too short to lie  
I mean no disrespect at all  
But if the other woman's on my mind  
On my life, it's a booty call

Well, you know what I like  
You've got it  
Just be there tonight  
I want it

You know that it's right  
All I wanna do is be  
Where you're at  
Why must I feel like that

[Repeat CHORUS]

Bow wow wow  
Yippy yo yippee ay, hey

Yo, take it to the limit

Every dog has his day

And I'm digging on the vibes  
So we can get together  
Make tonight real live

Checking out the front  
Checking out the back  
Well, I'll be god damned  
Is it really like that

Summer's hot  
Winter's freezing  
Chasing that cat  
All through the season  
Hey, yo, girl, stop teasing

Check your trips  
Cause I really wanna stroke  
You're saying I'll drown  
I'm saying you'll choke

Back at my place  
Face to face  
I'm trying to be good  
So we can cut to the chase

You know what I like  
And, baby, you got it  
Come on, let's get this started

Back on Blackstreet  
We can have a ball  
Cause after all  
It's just a booty call

Well, you know what I like  
You've got it  
Just be there tonight  
I want it

You know that it's right  
All I wanna do is be  
Where you're at  
Why must I feel like that

[Repeat CHORUS]

Bow wow wow  
Yippy yo yippee ay, hey
