

# I Can't Get You (Out of My Mind)

Blackstreet

It's alright baby

[1] - I can't, get you out of my mind  
Your love is, one of a kind  
You've given so much of yourself  
I swear, don't want nobody else

Baby don't you know that I'll do anything for you  
I'll give you my time, give you my heart  
Give you the world if you want me to  
Life hasn't been easy  
Knowing that you love somebody else  
Ain't nothing I can do about it  
All I have to blame is myself, and I can't

[Repeat 1]

I thought I had you fooled  
With the girls and the things that I was putting down  
But little did I know  
Miss Thang was spreading business all over town  
I don't know what she told you  
But I bounced upon the love one time  
I took her to my house, laid her on the couch  
Set it affray, then threw her ass out

So what about the girl in the 6-4  
She didn't mean a damn thing to me baby  
She needed a ride from the jam  
And being the man that I am, I said "you can"  
And what about the girl in the drop-top  
With the lollipop, at the light, by the bus stop  
You musta beel fooled into thinkin the kid was slack  
Girl I did my thing, but now I want my baby back  
Girl I can't

[Repeat 1]

Damn, just picked the wrong time to mess up  
From the time you left me, up until this moment  
I just couldn't get you off my mind  
But I know if we could start all over again  
I know things won't be the same  
I can make it better, I swear, I swear  
Girl, I swear

[Repeat 1 til end]
