Tonight's the night, gonna do my thing
I'm gon find me a lady, we gonna dance at the party
And when the party's over, I'm gonna start her to the crib
So I can get to know her better, so I can see what she's made up

I wanna love you, hold you, squeeze you, please you
Let me do my thing tonight baby
And I wanna touch you, kiss you, but don't get emotional
Don't get emotional, cause baby is a physical thing

Hey girl, let me do my thing, is a physical thing, baby
Let me do my thing to you
Hey girl, let me do my thing, is a physical thing, baby

I'm goin' to the party to find someone, cause you'll be there waitin for me
So we can start out to the crib, let me get to know you better
So we can get a little bussy, let me show you what I made up girl

I wanna love you, hold you, squeeze you, please you
No time for playin around, let's get right to the point baby
Touch you, kiss you, but don't get emotional
Baby don't get emotional, cause is just a physical thing

Hey girl, let me do my thing, is a physical thing, baby
I want a physical thing between me and you
Hey girl, let me do my thing, is a physical thing, baby

Baby girl, don't take this the wrong way
I wanna show you love in my own physical way
That's the way I'm living, so what you wanna do
