

Binary Love

Blake Lewis

You tempt me with a single touch
You're turning me on, you've powered me up
Me memory is burning up so best
Stop before you're any closer
System overload, you move it like a pro
Your body language is coming to me in stereo
It seems that you were made for me

I'm programmed to love and make you mine
My binary love, bah, binary love
Now there's nothing left to do but take our time
My binary love, bah, binary love
So let imagination start to take control
My binary love, bah, binary love
So systematic, we were made to be alone
My binary love, bah, binary love

So tell me {tell me}
Have you ever felt a connection this strong?
Dynamic symmetry the way we move
Is like electric poetry in motion
Sensory overload, defined original
Seductive frequency coming to me in stereo
It seems that you were made for me

I'm programmed to love and make you mine
My binary love, bah, binary love
Now there's nothing left to do but take our time
My binary love, bah, binary love
So let imagination start to take control
My binary love, bah, binary love
So systematic, we were made to be alone
My binary love, bah, binary love

Binary love, binary love, binary love
Floating through time and space
The world feels so far away
We're connected through our binary love
Floating through time and space
The world feels so far away
We're connected through our binary love

I'm programmed to love and make you mine
My binary love, bah, binary love
Now there's nothing left to do but take our time
My binary love, bah, binary love
So let imagination start to take control
My binary love, bah, binary love
So systematic, we were made to be alone
My binary love, bah, binary love
