

# Left My Baby For You

Blake Lewis

When I wake up  
I need ya out of my face (out of my face)  
When I'm with her  
She takes me out of my space (out of my space)  
I wanna run, run, run, run, run, run, run it again  
I gotta run, run, run, run, run, run, run it again  
Again

'Cause when I kiss her  
I'm out of my mind (out of my mind)  
When I miss her  
I lose track of time (I lose track of time)  
I wanna run, run, run, run, run, run, run it again  
I gotta run, run, run, run, run, run, run it again  
Again

I left my baby for you  
(I left my baby for you)  
I left my baby for you,  
(I left my baby for you)  
For you  
I left my baby for you  
(I left my baby for you)  
I left my baby for you  
For you

When I love her  
It feels so out of this world (it feels so out of this world)  
When I touch her  
I wish that she was my girl (I wish that she was my girl)  
I wanna run, run, run, run, run, run, run it again  
I gotta run, run, run, run, run, run, run it again  
Again

I left my baby for you  
(I left my baby for you)  
I left my baby for you,  
(I left my baby for you)  
For you  
I left my baby for you  
(I left my baby for you)  
I left my baby for you  
For you

Left her for you  
I left my baby for you,  
(I left my baby for you)  
For you  
I left my baby for you  
(I left my baby for you)  
I left my baby for you  
For you

And I know that I'm wrong  
I know that I'm wrong  
Know that I'm wrong  
(I'm wrong)

I know that I'm wrong

I know that I'm wrong  
I know that I'm wrong  
(I'm wrong)  
I know that I'm wrong  
I know that I'm wrong

So I whisper sweet nothings to you  
Baby, please forgive me not  
Heart shut, closed up  
Closet door, it's openin'

Whisper sweet nothings to you  
Baby, please forgive me not  
Heart shut, closed up  
Closet door, it's openin'

Whisper sweet nothings to you  
Baby, please forgive me not  
Heart shut, closed up  
Closet door, it's openin'

Whisper sweet nothings to you  
Baby, please forgive me not  
Forgive me not  
Forgive me not

And I will start fallin'  
'Cause you don't love me like she did  
And I was all broken down  
'Cause you don't love me like she did  
Like she did, like she did  
Like she did, like she did  
Like she did, like she did  
You don't love me like she did

Left her for you  
I left my baby for you,  
(I left my baby for you)  
For you  
I left my baby for you  
(I left my baby for you)  
I left my baby for you  
For you

Left her for you  
I left my baby for you,  
(I left my baby for you)  
For you  
I left my baby for you  
(I left my baby for you)  
I left my baby for you  
For you

Now it's over, it's over,  
It's over 'cause I'm lonely  
Yeah, it's over, it's over,  
It's over, she don't want me

Yeah, it's over, it's over,  
It's over 'cause I'm lonely  
Yeah, it's over, it's over,

It's over, you don't want me anymore

It's over, you don't want me anymore

It's my fault

She don't want me anymore

She don't want me anymore

It's my fault

It's my fault
