

Our Rapture Of Love

Blake Lewis

Last night I dreamt of your hands in mine
Your touch made me feel alive
You told me that I was your favorite mistake
Our destinies intertwined

And it felt so real
Seeing our love
It 's just begun
And it makes me feel
So warm I could melt inside

Hold me close
Hold me deep inside your heart, now
Dream with me
Close your eyes and you will see
Our rapture of love

Our rapture of love

I woke this morning your hand in mine
And gazed into your eyes
You smiled so coy and you moved in slowly
A kiss to stop all time

And this feels so real
Seeing our love
It's just begun
And it makes me feel
So warm I could melt inside

Hold me close
Hold me deep inside your heart, now
Dream with me
Close your eyes and you will see
Our rapture of love

Is this real?
Have I found my love?
This is real.
I found my love.
(2x)

Hold me close
Hold me deep inside your heart
Now, Dream with me close your eyes and you will see Our rapture of love

Our rapture of love (4x)
