

## Beside You Babe

Blake Shelton

Without even tryin' when I close my eyes  
I see you walking 'round inside of my head  
Looking up at the sky shining brighter than the single sunrise  
It's every burn red

And I wanna hold you, hold you  
Holding in the warm sunshine  
If I never told you, told you  
I'm giving you the rest of my life

'Cause we got the fire tonight  
And it makes me wanna  
Dance with my baby in the dead of the night  
Just keep on moving and grooving to the daylight  
And I'll be right beside you babe 'til the end of time

I been bragging about you baby  
You can bet I've been calling up all of my friends  
Don't you know I've been counting down the days  
Feeling just crazy enough to call up your old man

And I wanna hold you, hold you  
Holding in the warm sunshine  
If I never told you, told you  
I'm giving you the rest of my life

'Cause we got the fire tonight  
And it makes me wanna  
Dance with my baby in the dead of the night  
Just keep on moving and grooving to the daylight  
I'll be right beside you babe till the end of time

And I wanna hold you, hold you  
Holding in the warm sunshine  
If I never told you, told you  
I'm giving you the rest of my life

'Cause we got the fire tonight  
And it makes me wanna  
Dance with my baby in the dead of the night  
Just keep on moving and grooving to the daylight  
And I'll be right beside you babe till the end of time

I wanna hold you, hold you
