

# Bringing Back the Sunshine

Blake Shelton

Been forever since I've been gone  
Haven't held you in so long  
Miss you more than words can say  
Guess we've got a little off track  
But love knows a way back  
Through the storms and pouring rain

Got my hands on the wheel and I'm flying  
Heart beat loud as the thunder rolls  
Lightning on the stampede of lightning roll  
I'm bringing back the sunshine  
Bringing back the sunshine  
Baby, it's about time, oh

Every moment, every sweet kiss  
All the loving that we both missed  
It's okay to let em go  
Yesterday's all forgotten  
And today we start rocking  
Somewhere underneath the rainbow

Got my hands on the wheel and I'm flying  
Heart beat loud as the thunder rolls  
Lightning on the stampede of lightning roll  
I'm bringing back the sunshine  
Bringing back the sunshine  
Baby, it's about time, oh  
Oh yeah, bringing back, oh

Oh, bringing back the sunshine  
Baby, it's about time, oh  
Bringing back the sunshine  
Baby, it's about time, oh

Bringing back, bringing back  
Oh, I'm bringing back the sunshine  
Baby, it's about time, oh  
Bringing back, oh yeah
