

## Country Strong

Blake Shelton

Cat Diesel Power cap pulled down low  
Makin that bacon, row by row  
Can't get them muscles at the YMCA  
It's from choppin' cotton, cuttin' corn and slingin' that hay  
Been heavy liftin' since the crack of dawn  
No doubt about it that boy's country strong

He's up in the mornin' yawnin' with those work boots on  
Workin' like hell 'til the dinner bell brings him back home  
Blue collar in his blood, backwoods in his bones  
No doubt about it that boy's country strong

He wears an old felt hat on his head  
Got a saddle for a pillow, and the ground for a bed  
Spurs on his heels, reins in his hands  
Drivin' cattle, ropin' steers and burnin' his brand  
There ain't no lettin' up all day long  
No doubt about it that boy's country strong

He's up in the mornin' yawnin' with those Tony Llama's on  
Workin' like hell 'til the dinner bell brings him back home  
Blue collar in his blood, backwoods in his bones  
No doubt about it that boy's country strong

Yea behind every good man, there's a woman  
She's the one thing that keeps him goin', keeps him goin'

She's up in the mornin' yawnin' with that coffee pot on  
Workin' like hell 'til the dinner bell brings him back home  
Blue collar in her blood, backwoods in her bones  
No doubt about it that girl's country strong

Cowboy's, plowboys, good hearted women  
They're all country strong
