

# Every Time I Hear That Song

Blake Shelton

There's something 'bout yesterday  
How fast it all flies away  
I don't know what it is about a goodbye kiss  
That makes you wanna stay  
We were crazy then we were over  
We were breaking up, making love, a runaway roller coaster

Every time I hear that song  
I'm standing in the pouring rain  
On your front lawn and oh-oh-oh  
I still think about you oh-oh-oh  
Every time I hear that song  
It's like the first time it came on and oh-oh-oh  
I still think about you oh-oh-oh  
I still think about you

There's something in the bittersweet  
The feeling of a memory  
Right there in the moment  
All I ever wanted was you and me  
We were crying, we were wasted  
We were dying when they played it

Every time I hear that song  
I'm standing in the pouring rain  
On your front lawn and oh-oh-oh  
I still think about you oh-oh-oh  
Every time I hear that song  
It's like the first time it came on and oh-oh-oh  
I still think about you oh-oh-oh  
I still think about you  
Oh, I still think about you

There's a soundtrack in my mind  
That takes me back in time  
When I hear that melody  
I think about you and me

Every time I hear that song  
I'm standing in the pouring rain  
On your front lawn and oh-oh-oh  
I still think about you oh-oh-oh  
Every time I hear that song  
It's like the first time it came on and oh-oh-oh  
I still think about you oh-oh-oh  
I still think about you  
Oh, I still think about you  
I still think about you  
Yeah, I still think about you

There's a soundtrack in my mind  
That takes me back in time  
When I hear that melody
