

Goodbye Time

Blake Shelton

It's your life - you say you need a change
Don't all the dreams we've seen come true mean anything
You say it's different now and you keep staring at the door
How can you walk away don't I matter anymore

If being free's worth what you leave behind
And if it's too late for love to change your mind
Then it's goodbye time

If we had known our love would come to this
We could have saved our hearts the hurt of wasted years
Well it's been fun - what else can I say
If the feeling's gone words won't stop you anyway

If being free's worth what you leave behind
And if it's too late for love to change your mind
Then it's goodbye time
