

# Love Gets in the Way

Blake Shelton

Little by little, now babe  
I've come a long, long way  
Picking up the pieces  
That you threw away  
Did you give it up  
Did I let you down  
Either way, it doesn't matter  
Cause I'm finally comin' 'round  
I hope you find where you belong  
Hello - goodbye  
Life goes on

In another town, in a little place  
Looking in the eyes of a pretty face  
I ain't no fool  
I know what she's thinkin'  
I can hold her in my arms  
But, I could never let her stay  
Cause, love  
Your sweet love  
Still gets in the way

Minute by minute  
I hear the voice in my heart  
And make a new start  
So, I think a little less  
I drink a little more  
Cause, all in all she's everything  
That I've been waiting for  
She smiles that smile  
I face the fact  
Love's a give and take thing  
And I can't give it back
