

One Night Girl

Blake Shelton

Sunrise

Slipping through the trees and it looks so pretty in your eyes
I guess I got carried away, kept you out here all night
I hope you don't mind
By the smile I see on your face,
I think you're havin' a good time, a good time

When I picked you up
Knew it wouldn't be enough
Couldn't fit it in one night
Shoulda told you then
Soon as you got in
I'd be taking my sweet time
I could show you around
All over the town
Whatever you like, girl
Ain't a way I can love you
The way that I want to
In just one night girl

I know
That I'm just now getting to be somebody that you know
Kick your seat on back cause girl we're gonna take it real slow
We already turned last night into tomorrow
And we're just getting started

When I picked you up
Knew it wouldn't be enough
Couldn't fit it in one night
Shoulda told you then
Soon as you got in
I'd be taking my sweet time
I could show you around
All over the town
Whatever you like, girl
Ain't a way I can love you
The way that I want to
In just one night girl

I'm gonna love you
I'm gonna show you
I'm gonna do you right, girl
You ain't a one kiss
Kind that I won't miss
You ain't just a one night girl

When I picked you up
Knew it wouldn't be enough
Couldn't fit it in one night
Shoulda told you then
Soon as you got in
I'd be taking my sweet time
I could show you around
All over the town
Whatever you like, girl
Ain't a way I can love you
The way that I want to

In just one night girl

You ain't a one night girl

No, no
