## **Small Town Big Time**

## **Blake Shelton**

Yea, Hollywood Boulevard Looking down, seeing stars 90210, Rodeo is Rodeo Glad I hit it, glad I did it and I'd do it again Yea, and hang with my friends

With them red Maserati's and them tuned up bodies And everybody gonna be the next somebody Yea, this place is a trip Hey but meanwhile back in the stick

Somebody's having a small town big time night Somebody's rocking the main street with red tail lights Somebody's cranking it up or falling in love Or keeping the buzz sipping on a little moonlight

Yea, they know how to rock Out in the boondocks 'Cause believe me I've been there Somebody's having a small town big time night, somewhere

Yea, two lane town squares Cotton queens, county fairs With a water tank Got 100 girls' names under the paint

Glad I hit it, glad I did it and I'd do it again Yea, I miss my friends

With them pick 'em up trucks and them dirt road ruts And all them country girls get to strutting their stuff East, west, north or south Yea you better believe that right about now

Somebody's having a small town big time night Somebody's rocking the main street with red tail lights Somebody's cranking it up or falling in love Or lighting it up with a KC spotlight

Yea, they all got the swerve Down back in their hometown I wish that I was there Somebody's having a small town big time night, somewhere

Somebody's having a small town big time night Somebody's rocking the main street with red tail lights Somebody's cranking it up or falling in love And twisting it up and dodging them blue lights

Yea, they know how to kick it Way out past the limits Cause baby I've been there Somebody's having a small town big time night, somewhere

Yea, somebody's having a small town big time night, somewhere I wish that I was there Yea, I wish that I was there
