

Gimme Speed

Blanks 77

palms are sweaty cant catch my breath
my heart is pounding inside my chest
im talking so fast ya cant understand
ive fallen under its command

[Chorus:]

SPEED - GIMME SPEED

wake up from another crash landing
i fall down when I try standing
blood shot eyes that blur my vision
dont you see what youve been missin

a pill a line do me fine
I speed away all my time
48 hours still goin strong
gonna crash out before too long
