They say our glory years have come and gone but what do they know, them fuckin' cunts things will never be like they were before that's what they say as they walk out the door but the young ones, we shoot straight from the heart we're gonna finish what we start we're gonna unify punks and skins never say die

[Chorus:]

punks and skins wear boots and braces punks and skins wear angry faces punks and skins ain't gonna fight punks and skins never say die

The time to have fun has come at last no more fightin', what a fuckin' blast if you don't hate me, I won't hate you cuz we're both the same, me and you when the nazis come, we're gonna fight you and me, standing side by side we're gonna unify punks and skins never say die

[Chorus]
