

Just another casualty, layin' on the line
killin' one another until the end of time
hear their screams, feel their pain look into their eyes
they say that war's a bitch its just a pack of lies.

[Chorus:]

search and destroy (4x) politicians choice corporations
they fuck the fuckin' country
to uphold their fucking name
future is unwritten but
the lies remain the truth
we praise all of the heroes
then we take their abuse.

[Chorus]

I wanna live to see tomorrow
with my own eyes
cuz i'll be there when your day
comes propaganda lies
and when your marching
shooting your guns i'll know the truth
peace ain't something that you die for
in the glory of youth

[Chorus]
