

theres fighting in the air
theres fighting on the street
try to put us down
wont accept defeat
broken down kids
come from broken down homes
no place to hide no place to go

[Chorus:]

I dont need your rules
i dont need your static
dont you try to stop me
cuz I fucking had it

We aint gonna die in a fucked up lie
time is drawing near
we will have no fear
gonna break away I aint gonna stay
gonna break apart
i'll stab you in the heart
