

Let's Be Honest

Black Audio

Think about it
What brought you here?
If we just keep our mouths shut
Maybe no one will hear
Talk about him, but your intent is clear
Just say you're pleased to meet me like I don't know you

Go out of your way, but I won't mind
I'll play your game, and every time
You say his name just to remind
You and I why you came

[Chorus:]

Talk, talk, talk about him, talk about him
If you think it will help, we'll just
Talk, talk, talk about him, talk about him
If it helps you control yourself

I won't question your innocence
I'll swear upon mine with you until our guiltless end
Who'd deny you such a faithful friend?
Who would defend your name? could he remember it?

Say you should go, but I don't mind
I'll show you the way, and every time
You say his name just to remind
You and I that you're still here

[Chorus]

If it helps you control yourself
Control yourself
Control yourself
Control yourself
Control yourself

You can't control yourself
You can't control yourself
Your sudden health

[Chorus x2]

Control yourself
Well, you just can't control yourself
Control yourself
Well, you just can't control yourself
Control yourself
