

Adore Me

Blaque

[Verse 1:]

It seems like the longest
Before I remembered
that you haven't paged me
And I'm about to go crazy
Why can't I address this
I'm not on your guest list
Is it another chick
Let me know if I am ditched for her

And I came across your mind
I know I did I know I had to
And I know you value our time
Cause other wise we wouldn't have gone this far
And I spent my nickels and dimes
Just tryina be wherever you were
And you still ignore me now
Ooh you still ignore me now
I'm the only one that will be down

[Chorus:]

I want you to adore me
Place no girl before me
I should be the only
The only shoulder you lean on
When you cry and you're lonely
You got my digits call me
There's no denying
That we both have caught the eye
[Repeat Chorus 2x]

[Verse 2]

I took the stuffin' out the teddy bears
That you bought for me last year
And you're the one to blame
Cause you still haven't changed your ways
What you think this is funny
Boy you still owe me money
And I know you're feeling me
But you persist to play your games

And I came across your mind
I know I did I know I had to
And I know you value our time
Cause other wise we wouldn't have gone this far
And I spent my nickels and dimes
Just tryina be wherever you were
And you still ignore me now
Ooh you still ignore me now
I'm the only one that will be down
down...

See
Let me tell you something
I trusted you
and you know what you did with my trust?

You threw it away
I'm a tell you something
Boy, that's not how I opereate.
