

## Blaque Out

**Blaque**

I never thought that our love was going  
to be something really special. That you were going to love me  
now I love you.

When the love comes and knocks the doors from your heart you  
called me and now  
my love is you.

[Chorus]

Because I love you I want you I need you my love

You're really the only thing I'm always thinking of.

Because I love you I want you I need you my love

You're truly the one I'm dreaming for and my reason to live.
