Ghost in the Machine

Blaze Bayley

Right on the edge of the world Where the answer's digital And the solutions are all silicon The questions, all what can be done Never what is right or wrong There's a virtual wave to surf along

Question the validity Of human mortality

A page says superseding God And they take all major cards Now you too can laugh and live forever

Is the answer deep inside The ghost, ghost in the machine Entitiy or dream, it matters not to me The ghost, ghost in the machine Silent and unseen Ghost in the machine

Do you want to live forever Do you want to live

Terabyte of memory Holding consciousness complete A solid state of immortality Saint of all technology Bless us in our infancy For they know not What they did to me

It's me
