

Hatred

Blaze Bayley

mascerading as a man
now your mask is gone
every one can see you now
see just what you are
your pride was bruised like your face
im dissapointed
in you and your childish ways
your rock and roll playground you dont deserve this
you dont deserve this life
this lie
leave me alone
i told you look in my eyes you will see
all of my hatred
look in my eyes you will see
you and your weakness
you walked in your dream and you
were the centre
everything revolving round
you in your illusion you dont deserve this
you dont deserve this life
this lie
leave me alone
i told you
