

# Wonderful Life

Blaze Bayley

Will I ever get through this?  
Blinded by the smoke and mist  
You're feeling miles away  
All my brother's in arms are nowhere to be seen  
Go for my gun, stand up and run  
Aim for the kill, firing at will  
Just keep moving on  
Don't turn away, don't run away  
Fight all the tears, face all you're fears  
Feeling I belong

It looks just just like a photograph  
All the lights on the hill are all glistening and proud  
All alone i wipe the sweat off my brow  
I've never felt so alive  
Wonderful life

And with every breath I take  
waiting for their first mistake  
I clench my loaded gun  
Peering down on them all I start closing in  
Feeling the hate, longer I wait  
Soaked by the rain, waiting to gain  
Just keep moving on  
Now is the time, end of the line  
No holding back, time to attack  
Im feeling so alive

It looks just just like the photograph  
All the lights on the hill are all glistening and proud  
All alone i wipe the sweat off my brow  
I've never felt so alive  
Wonderful life
