

Deadman Walking

Blaze Ya Dead Homie

Everybody make way for the walking dead
He says it to the wolves
And all they said
Is back to the lab
With ya scientific marble
I'm alive even though I break off and crumble
Let me sleep forever and have a nice dream
Cause IF I walk these streets
You're gonna hear the night scream,
Trust me I don't even have a bestfriend
To find your ass murdered and dumped on the west end
I'm a deadman watchin' you face to face
Shiiiiit!
My breathe so bad
You can taste it.
(Look out... here he comes)
(Oh my God it's him)
I stomp when I walk
Big 6 feet 10
I be a deadman walking
I'm still barkin'
Where will I fall so all ya'll can chalk me out
No doubt I'm a walk it out
That's what I'm talking 'bout bitch
Everybody shout
Walk it out
Walk Walk Walk it out
Walk it out
Walk Walk Walk it out
This deadman walks between evil and good
The purgatory I'm livin in is misunderstood
Through the ravens' red eyes
Beazulbub is watchin' B.L.A.Z.E.
The deadman will walk it out
Boom Walkin' side steps
Got up and stepped into
The keebler's crib
You kept knockin' on my crib
Until' I finally came out
Rose up above you
And snuffed ya flame out
The clock on my neck tells backwards time
And that Ouija board ain't no hole you'll find
I know demons that'll come through
And won't go back
They'll pull tha hair out ya head
It won't grow back
I de a deadman walking
I'm still barkin'
Where will I fall so all ya'll can chalk me out
No doubt, I'm a walk it out
That's what I'm talkin 'bout bitch
Everyboddy shout

I've gone all the way around this planet twice
Lookin' for a way of how to pay this price
All across the deserts and over terrains

If I'm dead why do I feel so much pain
I Be a deadman walking
I'm still barkin'
Where will I fall So all ya'll can chalk me out
No doubt I'm a walk it out
That's what I'm talking 'Bout Bitch
Everybody shout
