

Celebrate

Bleach

Is this real
I hope it's not fake
Just a dream, don't let me wake
Hands down
Hands down
You're the best I've ever found
And I celebrate the day
That I met you, That I met you
You and me, can change the world
Move a mountain, the impossible
Is unboun, hands down
You're the best I've ever found
and I celebrate the day
That I met you, that I met you
The impossible is possible
The unthinkable is coming true
And I celebrate the day
that I met you, that I met you.
