

Patience

Bleach

Patience only comes when you spend your time just waitin'
You're the only one, that's worth to wait, I think you're great
And writing melodies
Somehow seems to ease, all the junk that's built up inside

Patience is what comes when you're waitin' all alone
Listenin' for the phone hopin' that you get a call
Maybe from some friends
Wonderin' how I've been, wonderin' if we all could hang out

And bring back the good times
I think that that would be just fine
Bring back the good times

Patience won't you come 'cause oh I feel like life's suspended
I have not become the thing that I have so intended
Put my mind at ease and I'll write melodies
And I'll sing songs of hope that's to come

Bring back the good times
I think that that would be just fine
Bring back the good times

I won't embrace the things that I have done
'Cause patience waits for what we will become
And oh, it's so much more I know that it's so worth waitin' for
