

Let's Get Married

Bleachers

Sit down, breathe and just listen
Hey baby, baby
I've been gone I've been gone I've been so far gone lately
I know it's bad when we look out
But bad, bad people
Don't live in our house
So i'm gonna look good for you honey
Get my myself together spend you all of my money
I know it's hard enough to love me
But woke up in a safe house singing honey let's get married

Don't wanna walk alone
So let's get married
I don't wanna walk alone
Let's just get married
Don't wanna walk alone
'Cause we don't wanna walk alone
Or runaway

Sit down, breathe and just listen
Oh my honey
They think they know what we're going through they don't know n
othing
I know it's bad when we look out
But bad, bad people
Don't live in our house
So I'm gonna get right for you honey
I'll take all of my medicine and spend you all my money
And I know it's hard enough to love me
But woke up in a safe house singing honey

Change me at all cost
Starlight is star-crossed
Take me so breathless
We could be reckless
Why don't you change me at all cost
Starlight is star-crossed
Take me so breathless
We could be reckless
