

## Wake Me

Bleachers

Right from the start I knew  
You'd set a fire in me  
And I'd rather be sad with you  
Than anywhere away from you

And hey  
I can't believe I captured your heart  
Oh whoa oh  
I can't believe I captured your heart

Stake my life on it  
If somebody's gonna quit  
Then I'd rather be sad with you  
Than with any other girls but you

And hey  
I can't believe I captured your heart  
Oh whoa oh  
I can't believe I captured your heart

If you're lonely lonely lonely wake me  
I can't believe I captured your heart

Right from the start I knew  
You'd set a fire in me  
And I'd rather be sad with you  
Than anywhere away from you

And hey  
I can't believe I captured your heart  
Oh whoa oh  
I can't believe I captured your heart
