

Entrenched

Bleeding Through

You think you've reached the bottom
Much more to lose
Embrace the seconds
They will turn their backs on you

Reflect
Replace
Destroy
Erase them all

Always the savor the taste
This may be the last you will get

You cannot conquer the world
Without your soul

Every step now coming closer
Reaching closer to your doom
The light keeps flickering out now

You will never shake the bitterness
Now that you have hit the end
No more to life
Remember the seconds
Broken Dreams trapped in time
