

Light My Eyes

Bleeding Through

This life has come to an end
This world has come to an end
This life is going to come to an end
This life has come to an end
This is my life that's come to an end
Take my hand, take my hand
Sixteen years through my eyes
Yeah, take my hand, take my hand
Sixteen years through these eyes
This world has come to an end
My life has come to an end
This life has come to an end
My life has come to an end
