

## One By One

## Bleeding Through

Enough is enough  
One by one you have failed each other  
Betrayed everyone  
Betrayed yourself

You left us here to rot  
Now one by one  
I'm hunting for you

All the promises you'll never keep  
Set aflame to all that remains

One be one  
I know your dream  
I'll smash them all  
One by one  
I'll bury your industry

One by one

Again and again  
Make the rounds  
Smell blood in the water

You stalk your prey  
Nothing more than selfish intention
