

## Starving Vultures

## Bleeding Through

Just let there be silence  
When this is over let the vultures starve to death  
Let there be justice  
On the devoted who believed then turned their backs

I won't make anything better  
I'm only here to ruin your life  
Still here to ruin your life

I'm not your savior  
Don't confide in me your willing minds  
I'll only corrupt them  
Set you on a path  
Make you destroy

I won't make anything better  
I'm only here to ruin your life  
Things will never get better  
No hope for your worthless life

One day you will die on your own  
Dwell in the darkness you wait alone  
Right here is a moment in time  
One day we forget  
And go on with our lives

On with our lives
