

Scream It Like You Mean It

Blessed By A Broken Heart

I found the one thing
That opens up my mind
It's stealing all the noise inside
Shot and bring my world to life

If it's all this right
Then maybe you should know
If it's in my reach
I'll never let it go
Walk the right road
Never leave you down
I'll take you to the place ...
Scream it like you mean it
Baby one more time
My ambition
To follow my own vision
Something I could never do without

I'll go the distance
I'll give all I've got to give
Find the words that you will fit
So my soul becomes a part of it

If it's all this right
Then maybe you should know
If it's in my reach
I'll never let it go
Walk the right road
Never leave you down
I'll take you to the place ...
Scream it like you mean it
Baby one more time
My ambition
To follow my own vision
Something I could never do without

Walk the right road
Never leave you down
I'll take you to the place ...
Scream it like you mean it
Baby one more time
My ambition
To follow my own vision
Something I could never do without

Walk the right road
Never leave you down
I'll take you to the place ...
Scream it like you mean it
Baby one more time
My ambition
To follow my own vision
Something I could never do without
